

“After running pureWash Pro through the washing machine, you can see how it instantly broke down the buildup. Over-use of laundry products is the biggest problem for your machine. Too much soap shortens the lifespan of your washer. pureWash Pro will extend the life of your washer while cleaning your clothes better. The water is also great for plants and washing pets. I have one myself, and I’m very happy to have it!” - Tom S., Elkhorn, WI
